

COVER BUYING GUIDE

Experience the hassle free hot tub experience you've been waiting for with a Smartop hot tub and swim spa cover! Designed with a hydraulic lift, this cover allows you to easily open and stabilize your cover in an upright and locked position. It's durable polymer deck surface withstands harsh elements, while the foam insulation prevents heavy water absorption and odors. They are available in 6 colors and 2 trim options.

SMARTOP UPRIGHT

The Smartop Upright hot tub cover creates a privacy wall and windscreen protection.

KEY FEATURES:

- Hydraulic lift spa cover
- Good if there's limited clearance behind spa
- Creates privacy and wind screen

Deco Overlay Series Available in 6 Cabinet-Matching Colors

Exclusive EAS Lift & Assist for feather-light, easy opening

Requiring just six inches of clearance behind your spa, the Smartop Upright cover is the perfect solution for limited space situations. Available in widths ranging from 56-120".

SMARTOP VANISH

The Smartop Vanish hot tub cover offers a low profile design for less obstructed views.

KEY FEATURES:

- Hydraulic lift spa cover
- Can position the cover in a low profile behind spa
- Odor free and absorbs zero water

Deco Overlay Series Available in 6 Cabinet-Matching Colors

Exclusive EAS Lift & Assist for feather-light, easy opening

Requiring 24 inches of clearance behind the spa, the Smartop Vanish cover allows open viewing to enjoy your surroundings. Available in widths ranging from 56-120".

SMARTOP SWIM SPA COVERS (UPRIGHT AND VANISH)

The Smartop Swim Spa can be made for swim spas up to 22 feet in length.

KEY FEATURES:

- Integrated hydraulic cover lifter
- Zero water absorption cover
- Great heat retention system

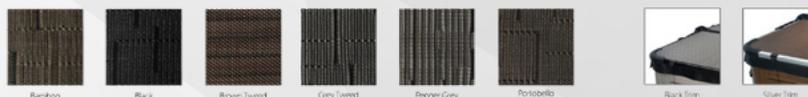

Exclusive EAS Lift & Assist for feather-light, easy opening

The Smartop Swim Spa is able to be ordered in either the Upright, Vanish, or a combination of the two (see above for differences in the two styles of Smartop covers).

Exclusive EAS Lift & Assist for feather-light, easy opening

DecoShield Color Options & Trim Options

DecoShield is a textured polymer overlay that provides an additional layer of protection against weather elements.

DIFFERENCE BETWEEN A SMARTOP COVER AND REGULAR COVER?

Smartop covers differ from regular hot tub covers in many different ways. Below is a comparison between Smartop covers and hard covers (the most popular type of cover):

| <i>Features:</i> | REGULAR COVER | SMARTOP COVER |
|---|---------------|---------------|
| • Customizable to the size of your hot tub / swim spa | ✓ | ✓ |
| • Different Color Options | ✓ | ✓ |
| • Available in both hot tub and swim spa sizes | ✓ | ✓ |
| • High R-Value Insulation | ✓ | ✓ |
| • Made of Vinyl and Foam Cores | ✓ | ✓ |
| • Made of a super polymer UV Resistant deck surface | ✗ | ✓ |
| • Hydraulic EAS lift cover system | ✗ | ✓ |
| • Lightweight and Easy to Open | ✗ | ✓ |
| • Zero Water Retention | ✗ | ✓ |
| • Creates privacy and wind screen (Upright) | ✗ | ✓ |

WHAT SMARTOP SPA COVER IS RIGHT FOR ME?

Smartop covers come in 3 different varieties: Upright, Vanish, and Swim Spa (both in the Upright and Vanish styles). Each one has it's own unique properties, so finding one that fits your lifestyle is a breeze.

UPRIGHT: The Upright cover creates a privacy wall and windscreen protection when lifted. Unlike the Vanish, it only requires six inches of clearance behind your spa, so it's the perfect cover if you have limited space.

VANISH: The Vanish hot tub cover prevents obstructed views, as it has a design that puts the cover off to the side of the spa. It requires 24" of clearance space behind your spa.

SWIM SPA: The Smartop cover for swim spas can be made for swim spas up to 22" in length. Swim spas come in both styles Vanish and Upright, so you can choose whats best for you depending on your space limitations and aesthetic preferences!
